The Dead Sea is the richest, most ancient natural spa in the world, well known as one of the healthiest areas for our skin.

Every year, thousands of people with skin problems arrive to the Dead Sea for treatments, based on skin-beneficial materials that the Dead Sea offers.

Millions of years ago, at the center of the earth, the minerals were created.

The powerful minerals of the Dead Sea do not exist anywhere else in the world.

They are known as building blocks of life and are vital key elements for the skin's optimal functioning.

These elements are known to dramatically increase skin moisture level, optimizing natural skin cells reproduction and maintaining youthful appearance.

All of the formulations are SLS/SLES/PARABEN free, and all of the products are enriched with many natural and organic ingredients.
